I just received this from Pond 5. Let's talk this weekend about how everything is going. Does Saturday work for you?

best,

Hi Nick,

My name is Mike Pace and I head up things on the Music and Sound Effects side at Pond5; hope you're well.

We've just received communication questioning the copyright of the Pond5 track you purchased on August 22, 2016 (Clip ID #3636748 "Dathrex Environment Series Rainforest").

We're investigating those questions currently. We believe that the claim in this communication raises inappropriate legal risk, mostly to you, but also to us, so we ask you to cease use of the track. If you agree to terminate the license we'll provide you with a refund \$20 credit.

Please let me know if you have any questions,
